EXPERIENCE

Website Developer

[YouthConnectionAssociation.com](#) / [KGCRRecruitment.com](#)

📅 06/2022 - Ongoing 📍 Windsor, ON

- Use WordPress to update and create pages using HTML and CSS through the WordPress integrated systems.
- Add images, contact information, descriptive paragraphs, and update out of date items on both websites upon user request.
- Create poster and graphic design images to promote the organization and the events that are unfolding.

IT Networking Co-op

[The Narmco Group](#)

📅 05/2022 - 09/2022 📍 Windsor, ON

- Worked on a network integration project that would change all the computers on the network to Solid State Drives, and upgrade the network to 1000/100/10 Mbps speeds.
- Answered multiple user tickets to remotely diagnose and repair computers or hardware-related issues, so that the other technicians and I could complete tasks as efficiently as possible.
- Created and updated Excel sheets with accurate information about projects and company statistics in a timely manner as to assist other technicians with projects.

IT Technician

[SILICON DIRECT](#)

📅 12/2021 - 05/2022 📍 Windsor, Ontario

- Diagnosed and used multiple machines and devices in order to repair customer hardware.
- Verbal and written communication in both French and English with customers and suppliers to aid their needs and ensure a smooth shopping experience.
- Reorganized the store floor and inventory to meet with company needs and regulations.

PROJECTS

Personal Website

📅 Ongoing

- Developing a personal website to display my personality and projects
- Use HTML and CSS to change attributes and develop the website

Employee Directory

📅 12/2021

- Created an employee management application in using Java language
- Acquires the name, employee number, hire date, shift time, hourly pay, monthly bonus, salary, training hours taken, training hours needed, and store them
- Displays the information in the command line afterwards

Database Creation and Management

📅 01/2022 - 04/2022

- Created a database using SQL
- Added information about covid such as vaccination rates, total cases, individuals hospitalized, etc
- Retrieved the information from the database upon request
