JOHN O. ALALADE

📞 (519) 980-1591   @ tjalalade@gmail.com   📍 Windsor, ON

EXPERIENCE

IT Networking Co-op
The Narmco Group
📅 05/2022 - 09/2022   📍 Windsor, ON

- Work on a network integration project that would change all the computers on the network to Solid State Drives, and upgrade the network to 1000/100/10 Mbps speeds.
- Answer user tickets to remotely diagnose and repair computers or hardware-related issues.
- Create and update Excel sheets with accurate information about projects and company statistics in a timely manner.

Website Developer
YouthConnectionAssociation.com / KGCRecruitment.com
📅 06/2022 - Ongoing   📍 Windsor, ON

- Use WordPress to update and create pages using HTML and the WordPress integrated systems.
- Add images, contact information, descriptive paragraphs, and update out-of-date items on both websites upon user request.

IT Technician
SILICON DIRECT
📅 12/2021 - 05/2022   📍 Windsor, Ontario

- Diagnosis and use of multiple machines and devices in order to repair customer hardware.
- Verbal and written communication in both French and English with customers and suppliers to aid their needs to the best of my ability and ensure a smooth shopping experience.
- Reorganization of the store floor and inventory to meet with company needs and regulations.

PROJECTS

Student Planner
📅 Ongoing

- Working with a Team of Computer Science Students to create an automatic student planner that is linked to Institutional websites such as Blackboard learn and Google Classroom. The planner will automatically detect when assignments are added and integrate them into your planner, so you never miss a due date.

Employee Directory
📅 12/2021

- Created an employee management application in java that acquires the name, employee number, hire date, shift time, hourly pay, monthly bonus, salary, training hours taken, training hours needed, and store the information as well display them in the appropriate prompt.

Platform Streaming
📅 Ongoing

- Stream gaming content on twitch, design custom profile pictures, twitch emotes, subscriber badges, stream layouts, profile banners, and video player banners using Krita and adobe creative, as well setup good quality visual and audio systems.
